WHILE FACING DEATH DOOMED MAN FIGHTS

Patrick's Attorneys Want New
Affidavits Accented.

MANY WITNESSES TO TESTIFY

Doomed Man, Aided by His Attorneys
and Witnesses, Is Still Making Very
Remarkable Struggle Against Death
in Electric Chair.

New York, March 3.—It was said Thursday evening that William K. Olcott, counsel for Albert T. Patrick, in the proceeding for a new trial now pending before Recorder Goff, will visit Sing Sing today to consult his client, and that John T. Milliken, of St. Louis, Patrick's brother-in-law, will accompany him there. They had not reached Sing Sing Thursday night, though inquiries at Mr. Olcott's office brought the reply that he was out of town and would not return. Where he had gone could not be learned.

Mr. Milliken is one of the affiants in the case, and has been ordered by Recorder Goff to appear when the hearing is resumed. Mr. Olcott said on Wednesday that he had telegraphed for the St. Louis manufacturer and had no doubt he would be here when called. Mr. Jerome has asked for Mr. Milliken several times and has declared himself unable to proceed further with the examination of the witnesses until he has heard from him. Mr. Milliken cannot be compelled to appear, but if he fails to do so, his affidavit will be stricken from the motion papers.

If Mr. Milliken appears, he will have to face many questions by Mr. Jerome concerning the manner in which the Texas witnesses brought here were discovered, and their affidavits obtained. Mr. Jerome will also go into the matter of compensation. Mr. Milliken in his affidavit swears that he spent large sums on getting detectives to find the witnesses brought north.

Mr. Olcott will endeavor to have three new affidavits of Texas witnesses accepted by the district attorney, and admitted by the court as part of the motion papers. Both the recorder and the district attorney refused on Wednesday to open the way for new evidence beyond what was included in the original motion papers.

The three new affidavits are here and ready to appear in court.

Mr. McKenzie, one of the new witnesses, asserts in his affidavit that he ran across Jones while fishing near Houston in the spring and summer last year. The first time they met McKenzie did not know who he was. The second time he learned it was Jones, who made off. The third time he drove the former valet out of his boat. Messrs. Goldman and Blackburn, real estate agents of Texas, assert that they saw Jones pass through the hall in the court house at Houston one day and heard a man remark: "There goes that Jones."

Moved by curiosity, Goldman went over to Jones and also asked Blackburn to shake hands with him. Blackburn asked instead if Jones was the man implicated in the Rice murder, to which Jones replied:

"Rice was not murdered. I told that he to save myself."

It is said that if these new affidavits are accepted by the court, Mr. Olcott will use them as a basis for a second and independent motion for a new trial.

The execution of Patrick has been set for the week beginning March 11.

Hearing Is Postponed.

New York, March 3.—The hearing upon the motion for a new trial in the case of Albert T. Patrick, convicted of murdering William Marsh Rice, an aged millionaire, was adjourned Friday until April 3. This will make necessary a further reprieve by Governor Higgins, as Patrick is now under sentence to be electrocuted on March 19. District Attorney Jerome informed Recorder Goff before whom the hearing was being held, that he would join with Patrick's attorney in the application for the reprieve.

NINE MEN ARE UNDER ARREST.

Complete Cracksmen's Outfit Found in
Room at Cannon House.

Atlanta, March 3.—Dynamite cartridges, dynamite fuses, nitroglycerine and four big bulldog pistols were discovered in a grip at the Cannon house by Patrolmen Chewing and Wood and Sergeant Manier. As the grip had been found in a room which had been occupied by a gang of supposed hoboes, who had been arrested and sent to the stockade, the officers at once concluded that the gang were burglars and safe-blowers.

There are nine members of the gang, and they were sentenced to 30 days in the stockade, and bound over for vagrancy by Recorder Broyles.

When the grip with its deadly explosives and arsenal was found, the police decided that the best and safest place for the men who had such an outfit was the Tower. Accordingly, the nine men were taken from the stockade and placed in the Tower.

For some weeks past the police have received information of burglaries and safe-blowing in the small towns near Atlanta. Only a few nights ago a safe was dynamited in a store about 4 miles from the city, and near the federal prison. It was believed then that a gang of professional crooks were at work, but the gang could not be located.

One of the men, C. H. Clark, had his case postponed and when the recorder learned about the grip and its suspicious and dangerous contents, he held Clark in a \$5,000 bond.

The other eight men, Tom Newman, John Wilkins, E. L. Walker, Harry Swain, Tom Morgan, Joe Davis, John Erwin and Harry Dornouse, were brought from the stockade and locked up in the Tower. Their bonds have also been raised to \$5,000.

Will Nominates Bryan.

Birmingham, Ala., March 3.—Norman E. Mack, of Buffalo, N. Y., a member of the Democratic national executive committee for many years, who supported both Cleveland and Parker, says that William J. Bryan is the only logical candidate for president. "Mr. Bryan has been consistent," he said, "and his maturity will make him formidable in view of the fact that the Republican party is more disorganized than for many years. He is sure to get the nomination, and he will have an excellent chance to be elected."

Publishes Result of Investigation.

Paris, March 3.—The Journal has published the result of an investigation made by its correspondents along the German frontiers. The paper says the Germans did not desire war, but the German army is ready and its superior mobilization plans permit a rapid invasion of French territory. The Journal counsels the abandonment of French reliance on fortifications, and the adoption of the German plan of a rapid invasion of the enemy's territory.

Pleads Guilty to Charge.

Helena, Mont., March 3.—The trial of Henry T. Haupt, of Spokane, and Daniel B. Jacobs, in the United States court on the charge of having sent lottery tickets by express from Butte to different eastern cities, took a most unexpected and unusual turn when Jacobs withdrew his plea of not guilty and entered one of guilty and was fined \$500 by Judge William H. Hunt. Haupt will stand trial.

Revolutionary Movement on Foot.

Paris, March 3.—According to information which has reached official quarters here, a revolutionary movement is on foot against Venezuela. The revolutionaries are concentrating on the island of Trinidad, where they are awaiting arms and supplies, previously to landing on the Venezuelan coast.

Long Convicted of Murder.

Monroe, La., March 3.—The jury in the case of the state against Tom Long, charged with killing his clerk, Joel Toole, in this city, the latter part of last November, returned a verdict of guilty with a recommendation after being out about 16 hours.

of a Cloudburst Follows a Dust
Storm in Wichita, Kans., Flooding
Both Streets and Sewers.

Kansas City, March 3.—A severe blizzard raged Friday in western Kansas, extending from Ellis, Kans., to the Colorado line. Although the weather was not very cold, a strong wind drifted the snow and played havoc with telegraph and telephone wires.

Communication Is Demoralized.

Lincoln, Neb., March 3.—Dispatches from Alliance, Norfolk and other western and northern points in Nebraska say the worst storm of the winter has been raging for 24 hours. At Alliance the conditions are growing and communication is demoralized in the western part of the state.

Rain Follows Dust Storm.

Wichita, Kans., March 3.—Following a dust storm that raged for three days, a rain storm reaching the proportions of a cloudburst prevailed Thursday night. The streets and the sewers were flooded.

The temperature dropped 30 degrees and a high wind prevailed, but there was no snow.

Big Storm in Denver.

Denver, March 3.—Six and a half inches of snow fell in Denver Friday, accompanied by a high wind, making it the worst storm of the winter.

Trains in Colorado and Wyoming were delayed from one to three hours. Advice from Wyoming say that the livestock suffered in that state. A heavy snow fell in the mountains, assuring plenty of water for irrigation.

Mystery May Be Cleared.

San Francisco, March 3.—It has developed here that a San Francisco mystery of two years ago has been touched on in the confession made by Harry Orchard, now imprisoned at Boise City, Idaho, on the charge of having murdered former Governor Steiensenburg. According to Orchard's confession as received here, the "inner circle" of the Western Federation of Miners plotted the assassination of every prominent man connected with the employers' side of the famous Custer d'Aleone strike, and that one of the attempts to commit murder took place in this city.

Major Livingston Mims Ill.

Atlanta, March 3.—Major Livingston Mims, former mayor of Atlanta, president of the Capital City club, and manager of the Atlanta office of the New York Life Insurance company, is lying seriously ill at his home at the corner of Peachtree and Ponce De Leon avenue. Thursday night Major Mims was very low, and the gravest apprehensions as to his recovery were expressed by the members of his family. His condition showed a decided improvement Friday morning, but he is still very ill.

Gets Seven Years in Pen.

Chattanooga, Tenn., March 3.—The criminal court in session at Lafayette, Ga., the county seat of Walker county, in which Fort Oglethorpe is situated, has sentenced Private Thomas Cross, of the Twelfth cavalry, to seven years in the Georgia penitentiary for killing Private Joe Kane at a beer club outside the army reservation.

Refuse to Report Tariff Bill.

Washington, March 3.—The senate committee on the Philippines have refused to report the Philippine tariff bill. By a vote of 8 to 5, the committee voted against a favorable report, and by a vote of 7 to 6 refused to report the bill adversely for the consideration of the senate. This effectively disposes of the measure.

GRAVES OF GRAY TO BE MARKED

Foraker Bill Providing for Care of the
Graves in the North Passed.

Washington, March 3.—The house has passed the army appropriation bill and the Foraker bill providing for the marking of the graves of confederate dead buried in the north.

Mr. Underwood, of Alabama, made a plea for the creation of a confederate memorial commission of three members to investigate and report the proper steps to mark the graves of the confederate dead and offered an amendment to that end.

Mr. Hull stated that his committee had reported the Foraker bill which practically accomplished the ends sought. Mr. Underwood replied that this applied only to confederate dead in the north. Mr. Williams, of Mississippi, urged Mr. Underwood to withdraw his amendment on the ground that all that the confederate veterans and the women of the south wanted was the provision of the Foraker bill; that the confederate dead in the south should remain sacred to the care of the south.

A letter was read by Mr. Hardwick, of Georgia, expressing the satisfaction of the women of the south with the Foraker bill and concluded with the hope that Mr. Underwood would not press his amendment.

The amendment was defeated by a point of order made by Mr. Kahn, of California.

The army bill was then passed. Immediately Mr. Prince, of Illinois, asked and secured unanimous consent for immediate consideration of the Foraker bill for the marking of confederate graves in the north.

The bill provides for the erection of white marble headstones over the graves and the fencing of the same. A commission is authorized to locate the graves.

After a brief discussion the bill was then passed amid general applause.

Mine Workers Nominate Officers.

Pittsburg, March 3.—Nominations for officers of district No. 5, United Mine Workers, closed Thursday night and the names of all candidates to be voted for at the special election on March 24th are now in the hands of Secretary Doods. There are from five to eight candidates for each office, and about two-thirds of the delegates to the recent convention have been nominated. Pat Dolan's name appears among those suggested for the presidency, but he refuses to take any part in the election and declares he will continue at the head of the organization, be the result what it may.

Quiet Prevails at Springfield.

Springfield, O., March 3.—Thursday night passed with no repetition of the riotous scenes of the two previous nights in this city. The military and police apparently have the situation well in hand and with the exception of two ineffectual fires early Thursday evening no incident occurred to disturb the peace. It has been announced that the troops will not be withdrawn until after Sunday. Brake-man Davis is still alive, though his death is looked for at any moment.

Dr. Dawson Comes Saturday.

Atlanta, March 3.—Rev. W. J. Dawson, the distinguished Methodist author and preacher, who is to reach Atlanta to conduct an interesting denominational series of meetings is one of the most eloquent preachers on the platform today. Since the announcement that he was to be here was first published there has been a widespread interest manifested in the meetings which he proposes to conduct.

Charged with Burglary.

Macon, Ga., March 3.—Call Officer Brannan, who made the arrest, was a witness against a negro giving his name as Lewis Nero, in a charge of breaking in Fred Goette's tailor shop early last night, when nearly \$200 worth of goods were taken. Some of the goods have been recovered. A heavy bond was fixed by Recorder Nottingham, and Nero went to jail. Others are said to be involved.

WILL DISPATCH ARMY TO CHINESE EMPIRE

To Protect American Interests
In China.

PRESIDENT RECEIVES REPORTS

Roosevelt Finds that While Chinese
Government Promised To Suppress
the Boycott, It Has Taken No Steps
In That Direction.

Chicago, March 3.—A dispatch to the Tribune from Washington says:

The United States is making preparations in the Philippines to dispatch an army to China to protect American interests, the secretary of war, in accordance with instructions of the president, having given directions for troops in the United States to be ready at a moment's notice for service in the Far East.

The president is hopeful the precautionary steps he has taken will have the effect of causing the empress dowager to adopt repressive measures immediately and thus avert an outbreak.

Such steps were imposed on him by reports he has received from all sections of the empire sent by consuls and their agents, and information obtained from other sources. These reports prove that a condition of unrest prevails, and Americans and their property are in danger in consequence of the feeling created by the boycott instituted last summer, the president has found that while the Chinese government ostensibly promised to suppress the boycott, it actually has taken no steps in that direction.

The foreign office at Peking insists it simply agreed to stop disorders, which were the results of the boycott, and it was not possible to order its subjects to buy goods of one merchant instead of another. In time the boycott doubtless will affect American trade, but it has not done so up to this time.

Quiet Reigns at Peking.

Peking, March 3.—The city is perfectly quiet and the police appeared without rifles on the streets. The officials explained that the police were armed to protect foreigners in the event of trouble. Although the government did not anticipate disturbances, it was thought best to show the intention of the authorities to protect foreigners.

Minister Drops Dead.

Birmingham, Ala., March 3.—Rev. J. D. Ellis, editor of the Alabama Christian Advocate, dropped dead Thursday afternoon at 4 o'clock from heart failure. It was the very day of his first signal victory as the editor of the leading religious paper of the state, due to the fact that in Thursday's issue the Advocate, Associate Justice John C. Anderson, of the supreme court, has an open letter pleading guilty to the charge made in the Advocate last week that he was intoxicated at the funeral of the late Chief Justice Thomas N. McClellan, in Athens, Ala.

Youngest Mother on Record.

Pittsburg, Kans., March 3.—Pearl Weeks, aged 11 years and 2 months, of this city, has given birth to a girl baby here, thus gaining the distinction of being the youngest mother in the west, perhaps in the world. J. E. Sanderson, the officiating physician, says that he knows of no younger mother. The baby is fully developed and is as bright and intelligent appearing as any youngster of her age. The mother is in a serious condition from her experience so early in motherhood, but there are chances for her life.

Heavy Loss by Fire.

New York, March 3.—Fire in the 9-story building at 314 Broadway, occupied by Benjamin McCabe & Bros. for the importers and jobbers of rugs; R. Hoorsman, manufacturer of toys; Allison & Co., manufacturers of lace curtains; and M. Hohner, manufacturer of musical instruments, resulted in a loss of \$750,000, the structure being entirely gutted.

THE CHAUTAUQUA HAS A WET DAY

But Attendance Was Very Good
Afternoon and Evening.

"THE RIVALS," BY F. J. STOWE

Miss Mary Florence Stevens in Irish
Songs—Edwin Southern's Lecture.
"If I Were the Devil"—Program for
Sunday and Monday.

The rain no doubt kept many at home who would have been present at the Chautauque in the afternoon Saturday to hear F. J. Stowe in his presentation of scenes from "The Rivals," but those who attended were well repaid, as Prof. Stowe was declared by all to be first-class. In one or two of the characters he was perfect, while in the entire representation he was brilliant. It was a feast.

Evening Program.

The evening's program of Saturday was opened with Irish songs by Miss Stevens, and she won much favorable comment. Her voice is admirably suited to the rendering of these songs.

"If I Were the Devil," the title of Edwin Southern's lecture which followed, was a most incomparable effort, and Mr. Southern stands in a class by himself in his satirical oratory. His lecture seemed to fairly captivate the entire audience.

Today's Program.

The regular services at the city churches will be held at 10:30 a. m., so the Bible study will be omitted.

At 4:45 p. m. vesper services will be conducted at the Tabernacle by Dr. Clarence B. Strouse, and there will be a large audience, as all are anxious to give him a hearty greeting.

At 7:45 p. m. Rev. F. A. Holtzhausen will deliver his great lecture, "The Monk That Shook the World." All should hear this scholarly address.

Monday's Program.

On Monday morning, at 10:30, Prof. Brown will resume his Bible lectures.

At 2:45 p. m. Alexander R. Tarr will deliver his lecture on "The Coming Man."

At 8 p. m. the Otterbein Male Quartette will give a grand concert, with readings by Miss Lily M. Burke and English songs by Miss Stevens.

ZINN AUTOMATIC RAZOR.

Every Man His Own Barber—Saves Time—Has No Pail.

In these days when men have no time to wait for "next," there is a demand for a way to remove the hirsute substance from the face neatly and quickly. The Zinn automatic razor is the very thing sought, and you can shave yourself with it in less time than a barber takes and the whole outfit costs only \$5.

These razors stand on their merits, and you can get one on 30 days' trial, and if you are not satisfied return it and get your money. Call on or address the Baird Hardware Company of this city, and if you once try a Zinn razor you will always use them.

A Guaranteed Cure For Piles.

Itching, blind, bleeding, protruding piles. Druggists are authorized to refund money if PAZO OINTMENT fails to cure in 6 to 14 days. 50c.

COD LIVER OIL.

It almost makes you sick to think of it, but it isn't nearly as bad as it used to be. The improved method of refining it makes it much easier to take, and when made into Scott's Emulsion almost every one can take it. Most children like it and all children that are not robust are benefited by it. When the doctor says "Take cod liver oil," he generally means Scott's Emulsion; ask him if he doesn't. They know it is more easily digested and better than the plain oil.

SCOTT & BOWNE, 409 Pearl Street, New York.

OLD PEOPLE CONSTANT SUFFERERS IN WINTER

Most old people are great sufferers in winter. They are seldom free from pains or ailments of some description, because they are not as able to withstand the severity of the climate, with its damp, changing weather, as are their younger, more vigorous companions. Cold weather starts the old aches and pains; they suffer with chilly sensations, cold extremities, poor appetite and digestion, nervousness, sleeplessness and other afflictions peculiar to old age. With advancing years the strength and vitality of the system begin to decline. The heart action is weak and irregular, the blood becomes thin and sluggish in its circulation, and often some old blood taint that has lain dormant in the system for years begins to manifest itself. A wart or pimple becomes a troublesome sore or ulcer, skin diseases break out, or the slight rheumatic pains felt in younger days now cause sleepless nights and hours of agony. There is no reason why old age should not be healthy and free from disease if the blood is kept pure and the system adapted to old people, because it is made entirely of roots, herbs and barks, selected for their purifying, healing and building-up properties, and is very mild and gentle in its action. S. S. S. warms and reinvigorates the sluggish blood so that it moves with more rapidity, and clears it of all impurities and poisons. As this rich, healthy stream circulates through the body every part of the system is built up, the appetite and digestion improve, the heart action increases and the diseases and discomforts of old age pass away. S. S. S. cures Rheumatism, Catarrh, Skin Diseases, Sores and Ulcers, and all troubles arising from diseased blood.

For State Senator.

I respectfully announce my candidacy for the Democratic nomination as Senator for Alachua county (32d district), pledging my support of all measures in the interest of the masses as against the classes; and especially do I pledge my support and influence in aid of the common schools and maintenance of the State University upon a liberal basis such as will enable parents to obtain for their children a thorough education in their own State, as well as all measures tending to promote the religious and moral welfare of the entire people.

Thanking my friends for their support in the past, and soliciting the vote of all Democrats at the coming primary, I am very respectfully,

H. H. McCracken.

WOMAN'S AUXILIARY.

Mrs. J. Lindsey Patton Will Make Address on Missionary Work.

The regular meeting of the Woman's Auxiliary of Holy Trinity Church will be held on Monday at 3:30 p. m. (instead of 4 p. m. as heretofore) at the church.

On this occasion Mrs. J. THE ODD FELLOWS' HOME.

Now Being Operated by the Gainesville Hospital Association.

The National Odd Fellows' Sanitarium is now being operated by the Gainesville Hospital Association, under the direction of Miss Foye Lynn, a professional nurse of great tact and ability. The association, it is understood, will make an effort to secure a lease of the property for a number of years, and in the event of success, the place will be operated as a first-class hospital and sanitarium. This will abolish the necessity of the erection of the hospital as originally intended, at least during the life of the contract.

STATE BOARD OF CONTROL.

Will Hold Meeting in This City Monday—Full Board Expected.

The State Board of Control will hold a meeting in this city tomorrow morning, and inasmuch as there will likely come before the meeting a great deal of business of importance, it is anticipated that a full board will be in attendance.

The fact that this city is now the site of the University, and the buildings are being erected, will probably necessitate more frequent meetings of the Board here in future, or until the work on buildings is completed.

Always Keeps Chamberlain's Cough Remedy in His House.

"We would not be without Chamberlain's Cough Remedy. It is kept on hand continually in our home," says W. W. Kearney, editor of The Independent, Lowry City, Mo. That is just what every family should do. When kept at hand ready for instant use, a cold may be checked at the outset and cured in much less time than after it has become settled in the system. This remedy is also without a peer for croup in children, and will prevent the attack when given as soon as the child becomes hoarse, or even after the croupy cough appears, which can only be done when the remedy is kept at hand. For sale by all druggists.

Cold and the Strawberries.

Col. C. C. Thomas has returned from Starke, where he has been for the past few days superintending the picking and shipping of his strawberries. He has a fine field, which promises a good yield. Col. Thomas states that the cold of Wednesday and Thursday affected only the berries that were matured, and in that section probably seventeen bushels were lost.

Assaulted His Father.

Upon a charge alleging that he assaulted his father, O. Williams, at his home near Bennington, Gilbert Williams was arrested by Deputy Sheriff J. H. Granger Friday.

Williams was brought to this city, but the matter was compromised in Justice Colman's court by a withdrawal of the charge by the elder Williams and the payment of the costs by the defendant.

"Fewer Gallons, Wears Longer."

The secret is out and Gainesville can go on living just as if the riddle had never been asked.

No it can't, either. Gainesville is not going to be what it was before. Its houses are going to be brighter, its people a little more prosperous—they are going to have some of their money left to buy other things with. The answer to the riddle is this: Yalons paint a building with fewer gallons of Devco Lead and Zinc paint than with mixed paints, and it will wear several times as long as a building painted with lead and oil mixed by hand.

There's proof abundant of it all over the United States. There will soon be proof abundant of it in Gainesville.

What will people do with the rest of their money?

The S. J. Thomas Co. are agents for this paint.

WOULD PUNISH GEORGIA.

Keifer, of Ohio, Wants Number of Congressmen Cut Down.

Washington, March 3.—Notwithstanding the long line of failures which mark the history of similar attempts, General Warren Keifer, of Ohio, has introduced his bill in congress to cut down representation of southern states because the negro vote is not counted.

Opponents of the constitutional amendment plan for disfranchisement of the negro can find no comfort in the action of this congressional back-number from Ohio. He says himself that states have the right to regulate the suffrage within their borders as they choose, and that his attempt to reduce representation is not based on the amendments which have been adopted by some states. Furthermore, he makes it perfectly plain when he includes in his proposed reduction the state of Georgia, which has no disfranchisement amendment to her constitution. In short, Keifer would cut down Georgia's representation because the negro has been kept from voting through the white primary plan.

There is absolutely no chance for the Keifer bill to receive any consideration whatever from congress. Representative Hardwick, of Georgia, who is a member of the census committee, to which all bills of this character are referred, has made a statement to this effect.

ALACHUA GINNERS HAVE COMBINED

Will Build One of Largest and
Most Modern Ginneries.

THREE COMPANIES INTERESTED

New Plant Will be Located on the S. A. L. and A. C. L. Tracks, and Will be Equipped With the Very Latest in Ginning Machinery.

One of the largest commercial deals recorded in Alachua county for some time has been consummated in Alachua, when the three ginneries of that place consolidated their interests and have decided to form an immense stock ginning company. It will bring together a large number of gins and a large amount of capital, and will probably be the largest ginning plant in the South when in operation. The ginneries who have decided to consolidate their interests are Rives & Son, Williams & Minell, and E. A. Turner, aggregating as present about thirty gins. It is understood, however, that this number will be increased to probably fifty.

The new company has secured a desirable location near the tracks of the Seaboard Air Line and Atlantic Coast Line railways, within a short distance of the center of the town. It is their intention to erect a commodious building, and the new plant which it decided to erect will be one of the most modern in the South. Preparations are being made, and work will begin on the building as soon as material can be secured. It is proposed to push the new venture as rapidly as possible, so that by the opening of the season the new company will be ready for business.

Alachua is probably the most important cotton center in the Sea Island belt, and the men at the head of the new industry are men of ability. There is no doubt but that the new venture will prove a great success, as it will concentrate the cotton interests of that town.

Health, vigor and tone predominate. New life and happy activity results. Mrs. Betty H. I have wished that I had known of it in my husband's lifetime." 80 cents. Sold by W. M. Johnson.

Held by Quarantine.

Mobile, March 3.—The steamer Prince George, of the Munson line, from Havana to Mobile, arrived in the lower bay early Friday morning and owing to a case of sickness aboard the vessel, was held up at the quarantine station. It being impossible to communicate promptly with any person in authority, the patient, who is Jacob Lowell, of Fargo, S. D., was landed on quarantine and the vessel allowed to come to the city. The steamer had on board 180 passengers from Cuba.

SCHOOL EXERCISES.

An Interesting Program at the Center School Closing Day.

Center, March 1.—After a term of five months' teaching, Miss Eliza Tillman closed the school here yesterday. This has been the most successful term taught here in several years, for which the patrons and children are grateful to their worthy teacher.

The attendance was good the entire term, and the average has been much better than that of any previous term.

There was a "school picnic," the good ladies of this vicinity having brought baskets filled with the dainties that only a woman knows how to prepare.

At 1:30 everyone present was invited to be seated in the school house to hear the program, in which only a week of time was spent in arranging.

First, "Happy Greeting to All," was sung by the teacher and pupils; "The Opening Address," by Roy Townsend; "Green Apples," was recited by Zany Townsend; "The Goblins Will Get You," by Mattie Ormond; "I Love My Papa" was nicely recited by Myrtis Polk; the parody of "The Burning Deck," by Gordon Townsend; "Tommy's Valentine," by Fannie Polk.

Next was a dialogue, "The Trials of a Teacher," by Ivy and Sam Townsend; recitation by Horace Polk: "The Backwoods School," an interesting dialogue, which received much applause, was acted in a natural way by the teacher, Miss Tillman, and six of the pupils.

Next was "The Georgia Courtship," by Walter Joyner in a very humorous way, which has to be heard to be properly appreciated. "The Closing Address" by Lolly Polk.

Hon. R. B. Weeks of Hawthorn was present, and after the program was finished, gave the children and patrons a nice talk, which was very much appreciated by all.

The patrons of this school want to thank the board for sending them such a prize for a teacher this year, and if Miss Tillman will come back the ensuing year she will be gladly welcomed; if not, we trust that we will be sent some one who will discharge their duties as faithfully as she did her's.

Clears the Complexion.

Orino Laxative Fruit Syrup stimulates the liver and thoroughly cleanses the system and clears the complexion of pimples and blotches. It is the best laxative for women and children, as it is mild and pleasant, and does not gripe or sicken. Orino is much superior to pills, aperient waters and all ordinary cathartics as it does not irritate the stomach and bowels. J. W. McCollum & Co.

Price of Ice raised.

New York, March 3.—With summer yet a long time off, the price of ice has already been raised by the American Ice company from 30 cents a hundred pounds to 40 cents a hundred pounds. With an advance thus early in the year, there is reason to suppose that the price will go still higher toward June.

Ris Improving in Health.

New York, March 3.—It was said at the post graduate hospital that Jacob Ris the tenement house reformer, who went to the hospital some time ago on the advice of his physician, has been steadily improving in health, until danger has been eliminated from his present condition.

MRS. AIKEN TELLS OF PLOT.

Wife of Man Who Was Shot Creates Sensation in Court.

Washington, Ga., March 3.—The preliminary trial of Mel Adkins, Alex Adkins and Mrs. Benjamin Aiken, all charged with complicity in a plot to kill Benjamin Aiken, on the night of Feb. 19, was held here before Judge Samuel Hardeman, of Washington city court. A dozen witnesses testified that Mel and Alex Adkins had been seen on the afternoon of Feb. 19, going in the direction of Aiken's home. They were in a top buggy, with all curtains up, although there were no signs of disagreeable weather.

One witness testified that Mel Adkins had been seen to go to Alex Adkins' home on the same afternoon that Aiken was seriously shot from ambush, secure two shotguns, which were wrapped in an overcoat and drive off in a closed buggy.

Mrs. Aiken, wife of the man who was shot, was the last to testify, and created a sensation in laying bare the whole plot, which she said, was instigated by Mel Adkins to kill her husband. She said that Mel Adkins threatened to kill her in the event that she said anything to her husband or on any one else about designs he had upon Aiken.

Judge Hardeman bound the two Adkins over under \$1,000 bail each. They were returned to jail in default of bond.

Afflicted With Rheumatism.

"I was and am yet afflicted with rheumatism," says Mr. J. C. Bayne, editor of The Herald, Addington, Indian Territory, "but thanks to Chamberlain's Pain Balm am able once more to attend to business. It is the best of liniments." If troubled with rheumatism give Pain Balm a trial and you are certain to be more than pleased with the prompt relief which it affords. One application relieves the pain. For sale by all druggists.

Students Make Large Contribution.

Nashville, Tenn., March 3.—After having made a most remarkable contribution of \$84,181 towards the budget of the student volunteer movement for foreign missions for the coming four years, the 3,000 students from 600 colleges, universities and theological seminaries, of North America, here in convention, gave themselves to the consideration of the complete equipment needed for those who are to transplant Christianity to non-Christian nations.

Veterans Will Receive Pension.

Atlanta, March 3.—Through the patriotic act of a wealthy Georgian, whose name must remain unknown, every confederate soldier and widow in the state will receive the pension to which they are entitled, despite the deficit in the pension fund. There is a deficiency of about \$17,000 in the pension fund, and the greater portion of the unpaid pensions are in the counties of Clarke and Newton, although there are about \$2,000 unpaid in different sections of the state.

HAIR TELLS CHARACTER.

Color of Hair Said to Indicate a Person's Temperament.

Many people believe that blonde, or light hair denotes affection and dark hair constancy. A person without hair is not devoid of character, far from it. The disposition of the average bald-headed man is to show such solicitude for the welfare of others, that he neglects himself. A germ causes baldness. Prof. Sabouraud, of Paris, France, inoculated a rabbit with Dandruff germs, causing it to become totally bald in five weeks' time. To rid the scalp of these dangerous germs it is necessary to apply Newbore's Herpicide.

"Destroy the cause—you remove the effect."
Sold by leading druggists. Send for stamps for sample to The Herpicide Co., Detroit, Mich.

Fugitive for Thirty Years.

Montgomery, Ala., March 2.—Louis Dankey, a negro, thought he killed another negro with a club 30 years ago and fled, he being a fugitive all these years. A few days ago he was arrested and on trial it was discovered that the man he hit was not killed. He was let off with a fine of \$10, after living 30 years in fear.

Tug Sinks; Three Drowned.

Gloucester, Mass., March 2.—The tug Daniel Willard which left Gloucester for York, Me., Wednesday night, struck a rock off the Rockport breakwater Thursday and sank. Three of the five men on board are believed to have been drowned. Two were rescued by the life savers from Pigeon Cove.

White Youth Cuts Negro.

Birmingham, Ala., March 3.—With his broken right arm in a sling, Hugh Beasley, the 14-year-old son of a well known man here, opened a knife with his teeth and fatally stabbed John Nelson, a negro, aged 18. Nelson and several other negroes had been worrying the Beasley boys for several days on their way home from school.

Re-Enters Naval Academy.

Annapolis, Md., March 2.—Ralph Earle Sampson, son of the late Rear Admiral Sampson, has re-entered the naval academy as a member of the present fourth-class. Young Sampson was recently dropped from a higher class on account of deficiencies in studies, but was at once re-appointed by President Roosevelt.

Dust Storms in Kansas.

Wichita, Kans., March 2.—The worst dust storm experienced in this section of Kansas in years, prevailed Thursday. For three days a high wind varying in velocity from 30 to 40 miles an hour, has swept the country. The air is filled with dust, giving the sky a leaden hue.

Wandering Man Returns.

Spartanburg, S. C., March 3.—John Thackston, father of J. P. Thackston, of this city, who was found by the police of Richmond wandering about the streets of that city in a dazed condition, has returned to his home. He was accompanied from Richmond by R. C. Wintry, a friend of the family.

Postponed for a Year.

Duquoin, Ill., March 3.—The prosecution of Joseph Leiter, owner of the Zeigler coal mines, on trial at Benton, charged with violation of the state mining laws on several different counts, has been postponed for one year.

A Fatal Explosion.

Terre Haute, Ind., March 3.—Beatrice Osborne, aged 5, was burned to death and Lizzie Osborne, aged 7, was fatally injured by the explosion of a can of gasoline with which they were playing at Burnett, Ind.

Queen Abandons Trip.

New York, March 2.—A dispatch from Rome to the American says the dowager queen of Italy has abandoned her proposed trip to the United States.

Gladstone's Speech For Irving.

Gladstone was a great admirer of Sir Henry Irving, and this admiration was shown one day in the house of commons. Irving was under the gallery in the house when suddenly, without apparent reason, Gladstone leaped to his feet and delivered an impassioned speech, set off with all the expression and dramatic gesture for which he was so famous. The house seemed surprised. Members looked at one another and murmured, "What is the old man now up to?" They thought it was some deep political game. But a week or two later a friend of Irving's, encountering Mr. Gladstone, mentioned the actor's visit to the house, and Gladstone eagerly inquired, "What did he think of my speech? I made it for him."

Skinning a Sable.

The method of skinning a sable is to draw the skin over the head without any incision in the body. The feet and tail are left as part of the fur. Every third of an inch is valuable, for the average length of the animal is only twelve inches and the tail about six inches. In the reign of Henry VIII, the use of sable was forbidden to any below a viscount. A coat lined with sables is often worth from \$500 to \$1000. A set of sable tails can hardly be sold for less than \$50. —London Standard.

The Snail.

The slowest creatures in creation are snails and certain small beetles. Some of them habitually move only a foot or two in an hour, but this slowness is partly due to the fact that they remain motionless at intervals. By measuring the distances covered by snails when they were kept going constantly it has been found that the maximum speed of a good healthy snail is five and a half feet an hour.

Ice Picks and Art.

The career of Mr. Frederick MacMonnies as a sculptor began when, as a boy of five years, scarcely tall enough to reach up to the top of the kitchen table, he modeled little figures in dough. Two years later he discovered a better material for his purpose. At that time a white wax chewing gum was much in fashion among children. Young MacMonnies saved his odd pennies until he could buy what he wanted of it, and then he made from it an equestrian statue of George Washington, which is still among the family treasures.

When he was ten years old Barnum's circus came to town. He was an enthusiastic admirer of the parade, and when the elephant appeared he became intense. He watched every motion and studied every line of the strange beast. Then he rushed into the house and, working as fast as he could, modeled from memory a clay elephant of which he need not be ashamed today. At thirteen he carved a likeness of a pet bullfrog out of a Belgian paving block, with an ice pick for a chisel.—World's Work.

A Tough Meat Story.

Of the food served to the sailors in the British navy of 100 years ago a recent historian says: "A ship's company had to start a cruise upon the old meat returned from various ships and routed out from the obscure cellars of the victualing yards. Frequently it had been several years in salt before it came to the cook, by which time it needed rather a magician than a cook to make it eatable. It was of a strong hardness, fibrous, shrunken, dark, gristly and glistening with salt crystals. Strange tales were told about it. Old pigtailed seamen would tell of horse-hoofs found in the meat casks, of curious barkings and neighings heard in the slaughter houses and of negroes who disappeared near the victualing yards, to be seen no more. The salt pork was generally rather better than the beef, but the sailors could carve fancy articles, such as boxes, out of either meat."

Horses and Medicine.

Healthy horses require no medicine, but there are so many intestinal parasites and so many kinds of worms that affect horses that constant supervision pays. Almost all young horses are better for a few feeds of sulphur in the springtime. Many horsemen like to give a little worm medicine, and each man has his favorite. A good many worm medicines are harmless, and if administered to a healthy colt will do no harm. Usually a keen horseman knows whether worm remedies are necessary or not, but in case of doubt it is a little safer to give the medicine, provided the medicine is really harmless. Some medicines are harmless and some are not. Stimulants are not necessary, and stimulating medicines should never be given except on the advice of a veterinary.—St. Louis Republic.

Cordiality.

Cordiality is the least expensive and farthest going of all commodities, and its practitioners represent our best successes. It is the key which unlocks the social and business doors, bringing men closer together, helping them to better work together, lightening their burdens and changing the twilight of trouble into the sunlight of happiness.—"Gumption," by N. C. Fowler, Jr.

To Do Good.

It is an eternal and inevitable condition that to do good we must be good. When any one is a truly good man, then even if he takes no part whatever in holy wars against the sin of the world his mere unconscious influence becomes a blessing to others.—Woman's Life.
